## Letter From the Publisher

By Jim Furey

We are headed into a brand new year and with that comes the hope for better things ahead. I thought that about 2012 and was a little disappointed. The year started off great with the all the annual polar bear runs and the weather was great. Then came the Wide Open Bike Show, which is coming back to town in a little more than a month. Then a couple of weeks later came Bike Week at Daytona Beach and we were rolling the winter was so mild that not a week passed by that I did not ride.

Then we got into April and our second TBL Swap Meet of the year. The first was in Hannibal, MO and for the second year in a row the weather did not cooperate. However, in April we were blessed with fantastic weather and a tremendous turnout. Our TBL Swap Meet is scheduled for April 7 at The Loading Dock in Grafton, IL. We look forward to seeing you there.

May was momentous for Joy and myself. Joy graduated Summa Cum Laude from SIU E and I at graduated from the respiratory care program at SWIC. I am so proud of Joy she is a massive overachiever.

June brought the Annual Ride for Wishes Ride sponsored

by Big St Charles and the same weekend was the Motorheads Poker Run. Later that month we held a bike show at the Hawg Pit in Grafton, IL. That same evening was the Annual Hartbauer McBride Dance.

July the heat set in. We still rode a lot but way more sweat was involved we also held our annual TBL Free Swap Meet. This year at Big St Charles Harley Davidson. It was another huge success both for us and the dealership.

August came round and with it our 9 th Anniversary Party and Poker Run. A week later was the Hartbauer McBride Poker Run which ended at Top Shooters in Columbia,IL. September and October brought some of the big rides of the year, including Bikers for Babies and the Bike and Badge Ride.

November brought the national election and with it more hate and falsehoods than I've seen, ever. Hopefully the nation can heal from it and get back on the path of growth. There was also a TBL Motorcycle Swap Meet. December we held two benefits for the needy, one in Jefferson County Missouri and the other in Belleville, IL.

Yes it was a busy year for us and we know this one will be as well. Thanks fro reading and don't just read The Biking Life, live it. Oh and finally Happy New Year.

## Footprint

I was reading an article on cars the other day and the main point they were trying to make was the size of the carbon foot print we are leaving on our environment. I guess I am leaving a big carbon foot print because last week I pumped \$86.00 in gas in my truck and today it is empty. The Harley will go almost a month on that much gas, but it's been too cold to ride. I don't know if I am getting softer or wiser in my old age, but I know I am leaving a good-sized carbon foot print wherever I go.

Looking back over the past years I was thinking about the people who have left a foot print in my life that are no longer here. Phil Tolliver, Lonnie Stallman and Kurt Myers are just a few that come to mind. I know that these guys were not perfect, but they tried hard to live the life they talked about. I know I am a better man having known these men.

I hope that the influence that each of us make on a day-to-day basis would leave a lasting impression for those we work with, live with, and love to help each of them make the right decisions in their futures. We've very aware of this as we raise children, but the job doesn't stop once they hit 21. We are an example for someone until the day we die.

Jesus asked that we following Him and he tells us in John 13:15, *"I have set you an example that you should do as I have done for you."* We know we should act better than we do, but feel that striving for perfection is a little too high. The apostle Paul serves as another great example for us. As a young man he persecuted Christians – he put them to death. But, he met the Lord on the road to Damascus, he turned his whole life around. He became the spokesman for God and Jesus and spent years traveling, preaching, praying, and spreading the "Good News" of Jesus Christ. His letters give us encouragement and set the example that each of us should follow. 1 Timothy 4:12 reminds us, *"Don't let anyone look down on you because you are young, but set an example for the believers in speech, in conduct, in love, in faith and in purity."* We have to remember that we are setting an example for our children and grandchildren, our brothers and our sisters, sometimes our parents, and everyone we meet along the way.

Every New Year we make resolutions to do something different or better. May we suggest that you take a look at the influence you have on others lives and see if there is some change you want to make? Are you helping or hurting the futures of others by the decisions you make and the example you leave?

Most of all, I want to encourage you to get your life right with God and come to know his Son, Jesus. Your future, your life, and the lives of each of your family members depends on it. If you don't know how to start your conversation with God, contact any Christian biker at your next event, call me at 314-434-2282 or e-mail me at [h2osjk@prodigy.net](mailto:h2osjk@prodigy.net); or you can contact the Missouri State Coordinator, Ray (Linda) Ward, [wardscma@yahoo.com](mailto:wardscma@yahoo.com) , 636-274-0998 or e Illinois State Coordinator, Don (Vicky) Brown, 217-629-8938, [vdBrown77@aol.com](mailto:vdBrown77@aol.com).

**Full Throttle Saloon's Angie and Goat by Jim and Joy Furey**

Angie Carlson from Full Throttle Saloon said she spends quite a bit of time doing shows like the one Wide Open hosted. Lucky for us—because she was there and so were we!

Angie said that she grew up in Sturgis and she was just a baby when she attended her first motorcycle rally there. She said this most recent year was her 36<sup>th</sup>. As far as her family is concerned, she has many biker relatives, so it seems that her involvement with Full Throttle Saloon and the Sturgis Rally is truly in her blood.

Friendly and down-to-earth, Angie was very forthcoming about the ring on her finger. She said that Michael Ballard (owner of Full Throttle) had surprised her with it. She said she thought they had gone to Gatlinburg, TN, for business, but then Michael proposed. She also spoke about her tubal pregnancy and subsequent miscarriage. When we expressed our dismay, she said it was okay; that she has nothing to

hide. She said she believes she will have a baby when it is in God's plan for her. Now that's one very nice, and very grounded, person!

While the Flaunt girls were not at the last Wide Open show, Angie said she is still their choreographer. She mentioned people sometimes think just anyone can be a Flaunt girl. In reality though, Flaunt girls are professionally trained dancers. Having seen them, I can say that they sure can put on a show!

She also confirmed that they are building another bar in Kansas City. Looking at the Full Throttle Saloon web pages, you can even find a link to an investor form. Not sure of the estimated time to opening, but that will be a great weekend destination for us in this area!

Angie had two well-loved Chihuahuas she was toting around with her in the Full Throttle area at the Wide Open Show. She said they were both rescue dogs and that she is passionate about trying to

help rescue other dogs. She said she assists shelters through Angieland's Animals which gives donations to help keep animals from having to be euthanized. She has to be one very busy lady what with traveling around to promote the show, setting up an animal rescue, working with Flaunt and at Full Throttle Saloon!

Goat Boy (Greg) also spoke with us during the show. He told us that he has been with Full Throttle Saloon since they put the first shovel in the ground. He said he was DJ-ing at a local radio station and was going to the Buffalo Chip to do a remote when he saw this place. He said he turned into the infield where the DJ booth is now, got out of the van, and asked who owned it, who was running this show. He said here came this dude across the field, a guy with long curly hair (before Michael had dreads), who looked like Robert Plant and Sammy Hagar mixed up, and said I'm Michael Ballard, and I'm running this thing. Goat said he introduced himself and said he was going to be Michael's DJ for the rest of his life. He said he's been there ever since and it's been twelve years.

He said he was born and raised in San Diego and then moved to South Dakota. He agreed that he went to Sturgis, met a girl there and never went back.

He said he is a very avid rider. One of his first bikes was a '76 Bonneville Triumph and then Billy Lane built him a bike. He then got his dream bike, an '08 Street Glide that he bought from Michael. It was the one that Michael used in the show.

When asked about the future, Goat said he wants to do as much as he can with Full Throttle Saloon, and that he wants to take it to the next level. He said he does not really want to get into the hip hop aspect of nightclubbing. Instead he wants to bring back old school rock and roll to nightclubs. He wants to bring back the old Skynyrd's, the old Pour Some Sugar on Me instead of all the bumping and grinding and ass shaking, not that it doesn't rock to seeing a girl doing that.

Goat says he travels and does shows for Full Throttle and on his own as well. He said that he's going down to Texas to launch a beer company and he's done the Hundred Year Harley. He said he was the one who was going to bring out Elton John, but he kind of turned away. He said it was interesting up there. He said Mick Jagger had been running around at the airport so people had been speculating that the Rolling Stones were doing the show. Everyone was sworn to secrecy, then the curtain opened up and there was Elton John and a lot of people left. He said he's been all over doing shows and that it is fun.

He agreed that life on the road is pretty tough. He said he had stood for twelve and a half hours straight the day before. He said Angie and Mike put the loop to you and say no chairs. When asked if Angie is a slave driver, he said between Angie and Michael, Michael is the slave driver. Angie is the one that kind of bears with stuff. Laughing, Angie spoke up and agreed saying she was standing too.

The Biking Life wishes to thank both Angie and Goat of Full Throttle Saloon for speaking with us. Both of them were fun, forthcoming, and interesting.

## The Way I See It By Sportster Rick

I am tired of my ability to be free and to prosper being crushed under the corruption of greedy, power hungry politicians who believe in nothing. These people are supposed to be the best and brightest among us but yet they can't seem to solve the simplest problem, they always find ways to bring a new tax or regulation down on us that ultimately benefits them not the good of our country. These so called leaders, a majority of them come from rich families, have ivory tower educations, have never lived in the real world, never worked a real job, the America that they live in and the America that we live in are two different places, when is the last time you think that any of them had to worry about the cost of gas or groceries or even been in a store for anything other than a photo opportunity to try to look like they are just regular people, I say rarely if ever.

Our Government has become so corrupt and detached from us that we have no more representation in Washington. Our system is broken, these people sit in their offices, play their power game and dodge responsibility for anything they do while they create new departments and committees that cost us billions of dollars every year, that take the heat for them when it all goes wrong and whenever the government gets involved in something it usually does sooner or later. Entities like the Department of Energy that has never created 1 watt of power, the Department of Education, since its creation the average test scores across the nation have spiraled downward. The Department of Homeland Security featuring a branch for US immigration and customs enforcement better known as I.C.E., that makes little to no effort to stop the flow of illegal's or secure our borders. The FDA that protects the big pharmaceutical companies so they can push pills but not cures and they take years sometimes decades to approve anything while thousands of people die waiting for treatments that have been proven to work wonders in other parts of the world.

The I.R.S. that enforces an out of date and broken tax code, the E.P.A. that spends more time trying to strangle our industries with more and more BS regulations than actually protecting our environment. I could go on and on because there are literally hundreds of government departments.

I'm not kidding, look it up. Every revolution in the history of the world was started by one man that was pissed off about something and decided to go and

find the others that thought the same way. That's how our country was founded, by great men who had enough and stood up to do something about it, it's getting to be that time again when we say enough.

Our once great nation has become something much worse than the ones that we fought a war to free ourselves from. I would hope that it doesn't have to come to that, there are many ways that we can change things these days and it all starts with being informed about what's really going on around us, forget about the main stream media, they are only going to tell you what fits their agenda or what the government wants you to hear, they are useless, look for alternatives.

I will address a lot of these things that I've mentioned individually in later issues. If you have a subject that you would like to bring to my attention or would like to comment, email it to me here at *The Biking Life*. I know I can't be the only one that can see what happening to our great nation, I look forward to hearing from you and GOD BLESS AMERICA.

(The views expressed by Sportster Rick are not necessarily the views of The Biking Life but we are willing to allow readers to express their opinions)

past this is a must do ride on the west side of the great big river and it seems that every year it gets bigger and better. Going along for the run with me this year was my friend Big Chuck and his lady Angie.

We said our hellos and goodbye and left Chucks to go to the Desoto VFW where I got to see Casper and Unc and Ski I have known these three for at least 25 years and it's always a pleasure to see them again. From there we rode on to the end at Hot Shots in Fenton.

Of course the lot was full and we saw friends that we had missed on the ride like Staples on the

Rat Fink Midget from the Midwest Drifters MC. Michelle who won a booze basket watching her get all that booze on her sporty was a sight.

While I didn't win a thing (oh well) Rose won a yard umbrella. We still had a blast this club is a great host whether it's this event or Gobble Holler anything they put on is worth going to and it's for a great cause now look at the pictures and get ready to ride spring is coming, so get that calendar of half-naked girls and put this event on it.

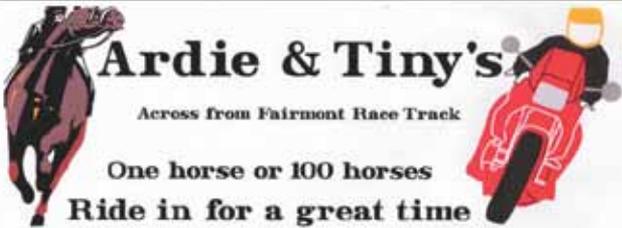

### **Killer wrenching to go riding**

### **Statesmen Run Rules**

Every June for the past few years I have had the great pleasure of going on the poker run sponsored by my friends of the Statemens MC. These are a great bunch of guys who have been together for over forty years now and really truly put on great runs and events. This poker run which benefits veterans of all wars starts as always at Chucks Boots in Fenton, MO and it was there that Rose and myself got to meet up with the usual amount of old friends well everybody I know and she knows would fill a room.

Lucky for the room we know a lot of the same people and most of them were on this run. Just like in years

Motorcyclist Awareness month. Then Allstate began focusing on cities that host major motorcycle rallies. From Florida to Nevada the insurance industry giant got involved in the motorcycle community by soliciting the help of famed custom motorcycle builders Dave Perewitz, Arlen Ness and Rick Fairless. Each man designed and built a motorcycle that brought Allstates' message to the public. A fourth bike was built by Ness and was to be the Grand prize in Allstate's National Sweepstakes.

On a recent episode of "Auction Kings" the custom motorcycle built by Dave Perewitz was featured to be auctioned off. The acid-trip paint scheme featured twenty-five eyes reminding people to "Look twice, because once is never enough."

## Once Is Never Enough By Sheri Wellen

Two years ago the National Highway Transportation and Safety Administration analyzed multi-vehicle crash data between 2005 and 2009. The study revealed that 1/3 of the motorcycle fatalities were at intersections. The study also noted that 46% of all the motor vehicle crashes that occurred in intersections were the result of a car turning left in front of a motorcycle. An average of three motorcyclists are killed every day at intersections in multi-vehicle crashes.

Allstate Insurance reviewed the data and developed a program to bring awareness to dangerous intersections. A lengthy study identified numerous intersections where these crashes occurred. A standardized warning sign was designed and permanent signs were erected in 30 U.S. cities. The sign is a yellow triangle with the word "LOOK" above a motorcyclist.

Not stopping there Allstate named the program "ONE" which stands for "Once is never enough." It also donated intersection safety material that was developed by the Motorcycle Safety Foundation to local driving schools.

The first signs to be installed were in Atlanta, Georgia on May 1, 2012 in commemoration of National

## Make a Wish

By Tommy Haynes

The Paderborn Rat Pack's annual poker run for the Make a Wish foundation had a good turn out again this year, and a good day for raising money for a great cause. The Rat Pack took us on a beautiful ride through out the county's and on some great scenic roads that we usually don't travel in our usual weekend rides.

These guys always puts on a great ride, and is always a good time. The Make-A-Wish run took us from Paderborn to Fountain Inn, down along the Bluff Road which is always a great ride down to Lisa's bar in Prairie Du Rocher, another favorite place to stop wile out riding.

Then we headed to Jan's Horseshoe Inn down in Shuline known as the concrete bar, if you have been there you know why they call it that. great place to ride to. Then they took us to the Oasis bar in Lenzburg, a place I haven't been to in a little while, but was great being there also.

Then we headed back to where it started. back to Paderborn. There they announced the winners of the poker hands, and drew the 50\50 winner, and gave out all there attendance prizes. We had great ride that day. Can't wait to see where they take us in the spring

next year. the Paderborn Rat Pack would like to thank everyone who participated in their run for Make-A-Wish this year, there was 81 bikes on the run, and thanks to all the establishments that let them stop in this year and to all the other establishments for their donations and support. the Rat Pack thanks you all. and we will hope to see all of you again next year on the 3rd Sunday in April 2013 for our Blessing of the Bikes and Spring Run. Thanks again from all of us at the Paderborn Rat Pack. Have a safe ride and be careful out there. Always remember we've just helped grant someone's wish.

of my other friend Michelle I wound up going to the end of the Halloween run (by the way she won best female costume as Robin Hood and she rides ok guys.)

The shop and crew are way cool and stacked to the gills with old British and Japanese classics both running and in various states of repair. They do great work at reasonable rates and threw a party where everything from a Kawasaki W650 to a BMW to a way cool 47 Cushman ice cream

## Flying Tigers Halloween Run By Killer Miller

You know as an old biker some things just catch your eye. A hot chick in a short skirt or halter top, for instance. One thing that always catches my eyes are old or cool bikes on the street. That was how I found Eric and Teresa's shop Flying Tigers motorcycle shop in Maplewood, MO. They are located on Manchester near Southwest.

I found their shop as I was returning from visiting my friend Brandy at the Midas on Manchester. I saw Anthony Stempers really cool Indian Bobber on the street and drove in to check it out. Then at the urging

Tenny. can be seen. My kind of shop and run I will be back for more of their events and encourage you our readers to do the same now dig the pics and stay warm Killer

**This month's tattoo can be found on the side of our friend Dawn Bielke. This tattoo was done by Darren at Inkwell in Fairview Heights, IL. This is of course the seven deadly sins. She told me that this was done after a particularly trying time in her life. She went through a divorce, her mother passed away and she lost her job. She felt that she touched all of these at one point during that time frame with the exception of greed. She said the divorce was not about money so she escaped that one. Her life is on an upswing now and we are happy for her. We thank her for submitting her fine body art and we invite you to submit yours also at [staff@thebikinglife.com](mailto:staff@thebikinglife.com).**
